In my personal standard of academic integrity, using AI content generators for this submission is...	◉	○	○	○	○

6. Please explain your rating above regarding academic integrity of AI use for this submission. Why? (Write in 2-3 sentences) *

AI in this part would be more useful to help learn new and different coding languages. It can also be very useful to debug as it can find bugs/mistakes that we can often overlook. The AI tool is powerful when coding.

7. How did using AI content generators impact **your learning** for this submission? *

	Greatly benefited my learning	Somewhat benefited my learning	Had no impact on my learning	Somewhat hindered my learning	Greatly hindered my learning	I did not use AI for this submission
Using AI content generators for this submission...	◉	◯	◯	◯	◯	◯

8. Please explain your rating above about AI's impact on your learning for this submission. (Write in 2-3 sentences, input N/A if you have not used any) *

I used it mostly to learn about flask and how to integrate HTML/CSS code. it also helped when i was having Git merge issues. Lastly, as mentioned before i used it to debug the code on the project i was having errors where when a name was searched the app would crash, now that does not happen and it helped me find a missing if statement .

9. For this submission, how would you rate the relative contribution made by your versus AI? *

	Entirely by myself, no contribution from AI	Mostly by myself, some contribution by AI	Evenly split between myself and AI	Mostly by AI, some contribution by myself	Entirely by AI, no contribution from myself	Fair

10. List all the **AI tools** AND the **specific prompts** you used for this submission (input N/A if you have not used any) *

ChatGPT
Example prompts:

"How can I create an application using Python and HTML/JS"
"My search function here crashes when i put in an invalid input, Is there something i am missing?"
"For unit testing, what python modules can i use? If i want to see if a function returns a valid list how do i ensure that"
"What things does a flask app deployment need?"

11. How confident were you in AI's responses that you received? *

○ Confident

○ Somewhat confident

◉ Neutral

○ Somewhat not confident

○ Not confident

○ I did not use AI for this submission

12. How did you ensure the answer you received from the AI tool was correct? (input N/A if you have not used any) *

When I used it to debug, I would run the code 9/10 times it was wrong but it would help put me on the right path so I would see where it was putting the code and manipulate the file until the file worked as I wanted.

13. Did you at any point abandon using AI tools and seek other resources? Explain your answer.   *

What made you abandon using the AI tool? Were you more successful using other resources? Input N/A if you have not used any

I abandoned it when I was looking researching deployment briefly. I thought youtube would be easier to follow along and not be hard to understand vs using a AI tool.
